REQUEST FOR CORRECTED FILING RECEIPT

Commissioner for Patents
Office of Initial Patent Examination
Customer Correction Branch
Washington, DC 20231

Dear Commissioner:

The attached Filing Receipt incorrectly lists the filing date of the above-identified patent application as "March 16, 2001" rather than "March 19, 2001." Please correct this error and reissue a corrected Filing Receipt.

Applicants believe the error in the filing date may have been occasioned due to an error made by the U.S. Post Office when completing the Express Mail form, a copy of which is attached. The Post Office incorrectly dated the Express Mail form "3/16/01" rather than with the correct date of 3/19/01. To support Applicants' position, attached are copies of two additional Express Mail forms for applications taken to the Post Office for mailing along with the above application. As you can observe, the three attached Express Mail forms were filled-out by the Post Office with the times on the forms indicated as within minutes of each other. However, only two of the Express Mail forms received the correct mailing date of March 19, 2001, while

Application No. 09/813,351
Request for Corrected Filing Receipt
Page 2

the remaining Express Mail form (the one for this application) was somehow inexplicably filled out by the Post Office with a date of March 16, 2001. A copy of Applicants' counsel's in-house March 19, 2001 postage meter printout for the three \$16.00 Express Mail charges for the three applications mailed simultaneously on that date is also attached (see highlighted items 1417A P 450, 1417A P 573 and 1417A P 574).

As can be observed from the application papers on file at the U.S. Patent and Trademark Office for this application, the date on all of Applicants' transmittal papers is March 19, 2001.

It is also noted that the application number assigned to this application is "09/813,351." The application numbers assigned to the other two applications mailed by Express Mail by Applicants' counsel simultaneously with this application and given filing dates of March 19, 2001, are "09/812,235" and "09/312,239." Copies of these filing receipts are also attached. The application number for the present application is higher than the other two applications, which would certainly indicate beyond a doubt that this application was indeed filed on March 19, 2001, and not March 16, 2001.

Applicants request that a corrected filing receipt be issued with the actual filing date of March 19, 2001. Please direct any questions concerning this matter to the undersigned counsel for Applicants.

Respectfully submitted,

Date: June 20, 2001

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
